LANDS IN UPPER CANADA,

TO BE DISPOSED OF

BY THE

CANADA COMPANY,

Incorporated by Royal Charter, and Act of Parliament.

1st. Crown Reserves.—Being detached lots or separate Farms, containing generally 200 acres each, scattered through the different Townships in the Province.

These lots are in many instances interspersed through the Old settlements, and have the advantage of established Roads in their immediate vicinity.

2nd. Blocks of Land containing from 1,000 to 40,000 acres each, situated in the Western Districts of the Province.

A town called Guelph, has been built [illegible] central position, on the most considerable of these Blocks in the Gore District, and Roads have been opened at the expense of the Company to the adjoining townships.

This settlement, and the lands in its vicinity, have improved with a rapidity unprecedented in the history of the Colony; a saw-mill and upwards of one hundred houses have been built, besides barns, and almost

136332

descriptions of tradesmen are numbered amongst the inhabitants.

As the erection of a church is commencing, it is hoped that ere long there will be also a resident clergyman. The building of a good grist-mill and oatmeal-mill is also in progress, which will probably be in operation by the end of this year.

Settlers with capital, who prefer establishing themselves on land on which partial clearings have been made, and houses erected, may find lots with such improvements for sale, and will be at no loss for comfortable accommodations at the taverns in the town, and board and lodging at a moderate rate till they are able to establish themselves.

They will find no difficulty in procuring laborers and servants, or in contracting for buildings, or the first operations of clearing the land of timber, making fences, &c.

The distance from Guelph to York, the seat of government in Upper Canada, is not more than eighty miles, and will be reduced to sixty miles, when an intended improvement in the road is completed.

Two large Blocks in the township of Wilmot, have also been surveyed and laid out into farms, a road has been cut through one of them from Guelph leading to the Great Huron Tract, and again through that to Goderich, on Lake Huron.

3rd. The Huron Territory.—A tract of 1,100,000 acres in the shape of a triangle, its base being about eight miles in length, resting on Lake Huron, and having a direct navigable communication through Lakes Erie and Ontario, to the Atlantic.

The Company have laid out a town in this district, at

the confluence of the River Maitland with Lake Huron, which promises, from its local advantages, to become one of the most important and flourishing Settlements in the Province.

Several enterprizing colonists, attracted by these advantages, have gone to settle at Goderich, and with the intention of erecting a brewery, distillery, brick-kilns, grist-mill, &c, (a tavern and saw-mill have already been erected.) The harbour, the only one within 150 miles, on the Canadian side of the Lake, is capable of containing vessels of the burthen of 200 tons, and it has been established as a Port of Entry, which will ensure the inhabitants a great share of the trade with the Upper Countries, and their opposite neighbours in the new settlements in the United States.

The scenery in the River Maitland is beautiful, and more like English than any other in Canada. There is abundance of brick-earth and potters-clay in every direction, with abundance of lime-stone fit for burning or building, and the river abounds with fish of the finest description.

Roads are in progress from Goderich to the town of St. Thomas, in the London District, from whence there are roads to Kettle-Creek and Port-Talbot, on Lake Erie. Cattle and provisions can be obtained in abundance by this route or the still more easy water communication between Goderich and the old, well-cultivated settlements of Sandwich, Amherstburgh, and Detroit.

A road has also been completed, as before mentioned, from Goderich, by Wilmot and Guelph, to the Head of Lake Ontario, and York; and it is intended to improve and maintain all these communications, so as to make them, in every respect, equal to the best roads in the oldest settlements in the Province.

For this purpose, and towards the improvement of water communications, the building of churches, school-houses, bridges, wharfs, and other works for the benefit and accommodation of the public, the Company have engaged to expend a sum of £48,000.

With respect to the important consideration of climate and soil, in the Huron Tract, the former is as good, and the latter equal, if not superior, to any other in Upper or Lower Canada.

The company have hitherto preferred making sales of lots of about from 80 to 200 acres to individual settlers, but the commissioners in Upper Canada have directions to treat with associations of settlers for larger quantities, or even whole blocks of land, if they should prefer this course (which was adopted by many of the first settlers in the western, and now the most flourishing districts of the State of New-York;) and there will be every disposition to encourage small capitalists and enterprizing and industrious emigrants by the most extended credit, on such conditions as may be only consistent with the final security of the Company.

OF APPLICATION.

Town, [illegible] 18[illegible]

To the [illegible] Company.

I wish to purchase [illegible] in the Concession of [illegible] and [illegible] for the same at the rate of [illegible] per Acre in the following manner:—

Cash down, [illegible]

Instalments, payable yearly, with Interest at 6 per cent. And I will conform to all the terms and conditions which the Company may establish for regulating the settlement of their Lands.

Address,

Post Office,
